

Manuals:

Sustainability indicators for strategic planning: A training manual for Process Facilitators of Urban Strategic Planning processes

Peter van der Steen

Contents

- Summary Strategic Planning process
- Process of indicator selection and development by local government
- Long list of indicators and selection algorithm
 - City typology (tropical, arid, development stage,...)
 - Available resources

Dissemination

- Builds on IWA performance indicator system
- Part of Module 1 Training Package
- No feed-back yet (to be arranged)

Innovations

Builds on IWA.....

- Existing indicator systems use utility as system boundary; the SWITCH system uses entire urban water system
- Gives better set of indicators; for real sustainable city

Environment

- Not connected to City Water system
- Case studies: Tel Aviv indicators and using City Water Balance to score indicators
- Only draft available.....
